

POPULARIZATION OF ASTRONOMY

01 June - International Children's Day

In 2019, the "Cosmos Summer Festival" was held at the Shamakhy Astrophysical Observatory (ShAO) named after N. Tusi of ANAS.

“Olympiad in Astronomy” on December 1, 2019.

The organizers of the Olympiad are Baku State University, Republican Children's Youth Development Center, ANAS Shamakhy Astrophysical Observatory and Tusi-Bohm Planetarium.

The Olympiad was held within the framework of the III Development and Innovation Grant Competition of the Ministry of Education of the Republic of Azerbaijan.

The project goal is to increase students' interest in the field of astronomy, to give astronomy a greater role in the education system and to encourage greater community participation in this field.

Super MOON

Considering the importance of science in the development of society, President Ilham Aliyev signed an order to mark March 27 in the Republic of Azerbaijan as "Science Day". Events jointly organized by the Shamakhy Astrophysical Observatory and the Tusi-Bohum planetarium
